Advances In Research On Neurodegeneration

Neurodegeneration is the progressive loss of structure or function of neurons, including death of neurons. Many neurodegenerative diseases – including amyotrophic lateral sclerosis, Parkinson's disease, Alzheimer's disease, and Huntington's disease – occur as a result of neurodegenerative processes. Such diseases are incurable, resulting in progressive degeneration and/or death of neuron cells.

Neurodegeneration - Wikipedia

Keystone Symposia, a non-profit organization dedicated to connecting the scientific community for the benefit of the world community and accelerating life science discovery, conducts scientific conferences on biomedical and life science topics in relaxing environments that catalyze information exchange and networking. Meetings are designed to encourage scientists to discuss the newest ideas ...

Our mission. BraYn stands for "Brainstorming Research Assembly for Young Neuroscientists", and is an initiative which aims to create a congress specifically intended for young researchers under the age of 40 working in the field of Neuroscience.

BraYn - Brainstorming Research Assembly of Young ...

The Centre of Neuroinflammation and Neurodegeneration (NN) investigates mechanisms of neurodegeneration and neuroinflammation common to many neurological disorders including Alzheimer's disease and other dementias, Parkinson's disease and Parkinson's Plus syndromes, Motor Neuron diseases, Huntington's disease, and Multiple Sclerosis.

Neuroinflammation and Neurodegeneration | Faculty of ...

Chuanzhou Li is a senior postdoctoral fellow in ageing and dementia research at the University of Queensland, Australia. He earned his Ph.D. in cell biology at Wuhan University, China. After ...

Tau-based therapies in neurodegeneration: opportunities ...

A provocative new study, published in the prestigious journal Science Advances, is suggesting the same bacteria responsible for gum disease is also the primary pathogenic cause of Alzheimer's disease.

Human drug trials explore strange link between gum disease ...

Hearing Industry Research Consortium. The purpose of the Hearing Industry Research Consortium is to develop and direct a non-competitive, mutually agreed upon research agenda that benefits the hearing aid industry, its customers, and end-users.

Hearing Industry Research Consortium

Conferenceseries.com organizing Genetics & Molecular Biology Conferences in USA, Europe, Australia and other prominent locations across the globe. We organise Genetics & Molecular Biology Meetings in the fields related to Tissue Science, Regenerative Medicine and Stem Cell Research.

Molecular Biology Conferences 2019 | Genetics Meetings ...

UT Southwestern Communications tells stories about the extraordinary work being done here every day and about the dedicated, passionate people behind it. Explore these stories.

Newsroom - UT Southwestern

1. Introduction. Tauopathies are a group of sporadic and familial neurodegenerative disorders, which are characterized by filamentous accumulations of hyperphosphorylated TAU proteins in neurons and glial cells. They are classified into primary or secondary tauopathies depending on whether TAU pathology is the major contributing factor to neurodegeneration or if it is associated with other ...

Types of Funding. The Basic Research Grants Program: Supports projects contributing to identifying and understanding the fundamental defects in Huntington's disease. Postdoctoral Fellowships: These postdoctoral fellowships are intended to cultivate interest in Huntington's disease research by bright young scientists. Fellowships are granted to those who possess imagination, rigor ...

Figure 1. Hypothetical model of the clinical trajectories of progressive supranuclear palsy. Progressive supranuclear palsy is considered as a pathological continuum from a presymptomatic phase, through a suggestive phase, to a fully symptomatic phase that, in many cases, would meet research criteria for possible or probable PSP-Richardson's syndrome by the Movement Disorder Society criteria ...

Advances in progressive supranuclear palsy: new diagnostic ...

The Journal of Clinical Investigation is a premier venue for discoveries in basic and clinical biomedical science that will advance the practice of medicine.

JCI - About the Journal of Clinical Investigation

Alzheimer's disease, the most common form of dementia, affects more than 50 million people worldwide. It robs people of their independence, and is the fifth leading cause of death. As the ...

Alzheimer's disease - nature.com

In honor of Parkinson's Awareness Week, we are sharing the new and exciting discoveries in Parkinson's disease treatment. Drs. Han-Lin Chiang and Yih-Ru Wu, leaders in Parkinson's disease research, discuss some of the most promising advancements in the treatment of Parkinson's disease.

Advances in Parkinson's Disease Treatment - BMC Series blog

Scientific discoveries are being made every day that are changing the world we live in. This list contains some crazy scientific innovations—and they've all been made in June 2013. From physics to medicine to biology, the following stories are sure to blow your mind. Technological and medical ...

10 Recent Scientific Advances That Signal The Future ...

Pediatric Neurology publishes timely peer-reviewed clinical and research articles covering all aspects of the developing nervous system.. Pediatric Neurology features up-to-the-minute publication of the latest advances in the diagnosis, management, and treatment of pediatric neurologic disorders. The journal's editor, E. Steve Roach, in conjunction with the team of Associate Editors, heads an ...
