Great teachers do more than promote the student's academic learning—they teach the whole child. Social and emotional learning (SEL) is critical to the introduction of college and career readiness standards, which increase the demands on students' ability to engage in deeper learning, and shift the focus and rigor of instruction.

The development of social media started off with simple platforms such as sixdegrees.com. Unlike instant messaging clients, such as ICQ and AOL's AIM, or chat clients like IRC, iChat or Chat Television, sixdegrees.com was the first online business that was created for real people, using their real names. The first social networks were short-lived, however, because their users lost interest.

We've always known that computer networks would destroy the world. We just thought they'd get super-intelligent first. Instead, we got social networks, which act as a stupidity X-ray: You suddenly see through the intelligent people your friends pretend to be to the LOLing Farmville players underneath.
