

How To Write A Feasibility Study For A Business

How To Write A Feasibility

Conducting a feasibility study is one of the key activities within the project initiation phase. It aims to analyze and justify the project in terms of technical feasibility, business viability and cost-effectiveness. The study serves as a way to prove the project's reasonability and justify the need for launch.

How to Write a Feasibility Study Report (FSR)

The business case traditionally is a document that defines the core business benefit of a project in order to justify the expenditure of the initiative. It often details how the project aligns with strategic goals in the org, and as such is a crucial yet often overlooked responsibility for managers, who assume that senior leadership is responsible for this, or who simply get quickly subsumed ...
