Patents For Inventions Sources Of

A patent is a form of intellectual property that gives its owner the legal right to exclude others from making, using, selling, and importing an invention for a limited period of years, in exchange for publishing an enabling public disclosure of the invention. In most countries patent rights fall under civil law and the patent holder needs to sue someone infringing the patent in order to ...

First, review the list of what can and cannot be patented and determine if your invention falls into one of those categories. Second, learn the basics of the patenting process from the materials provided by the USPTO at 800-PTO-9199 or 703-308-HELP or under "General Information." Next, a search of all previous public disclosures (prior art) including, but not limited to previously patented ...
