Shutterstock. Go big or go home—when it comes to breakfast, that is. A study published in the journal Obesity found that participants who woke up to a hearty a.m. meal lost more weight than those who restricted their calories. To come to these findings, researchers followed two groups of overweight women with metabolic syndrome and fed them 1,400-calorie diets for three months that were ...

The aim of this WikiProject is to set out broad suggestions about how we organize data articles about birds and related topics. In general, these are only suggestions, and you shouldn't feel obliged to follow them. This WikiProject aims to help organise our rapidly growing collection of articles about birds. Included in its scope are articles for all known species, genera, families, and orders ...

The vast range of maximum lifespan differences between species provides convincing evidence that longevity is genetically influenced. An elephant lives about 10–20 times longer than a mouse, yet both animals have roughly the same number of lifetime heartbeats — the elephant at 30 per minute and the mouse at 300 per minute.

This guide stresses the systematic causal analysis of gender inequality. The analytical questions raised and the readings listed consider why and how gender inequality arises, varies across and within societies, persists over generations, produces conformity by individuals and institutions, resists change, and sometimes changes dramatically.

Earthquakes and Meteorology. The concept of "earthquake clouds", has been dealt with in detail in the 32nd chapter of Varahamihira's Brihat Samhita.. The greatness of philosopher, mathematician and astronomer Varahamihira (505-587 AD) is widely acknowledged. The Ujjain-born scholar was one of the Navaratnas in the court of King Vikramaditya Chandragupta II.

From the basic meat we cook on the stove, to the browning of bread, there are a variety of recipes that utilize the complex, yet pleasuring and delectable Maillard reactions to create delicious foods.

### **Science & Food - : Science & Food**

In this course we will investigate what causes inequality between women and men. How does it arise, why does it take different forms, why does it vary in degree across societies, what are the components that add up to gender inequality, how do various institutions and practices contribute to it, and how does it change?
