An Elimination Diet is a powerful tool to get to the root of most diseases and disorders. Why?

Because most disease begins in the gut. The gut has the highest concentration of immune cells, and the most common thing that the immune cells will react to is food. When you are constantly in pain, moody, and fatigued, your body is inflamed. In other words, your immune cells are being irritated by ...

The Military Diet—also called the Hot Dog Diet—involves eating things like hot dogs and tuna to lose weight. There are claims that it boosts your metabolism and can make you lose 10 pounds in a week, but according to experts, that's all false. You might lose some water weight, but the low-calorie count can put your body straight into starvation-mode, which actually slows down your ...
