STATISTICS - University of Washington

The domino theory was a theory prominent from the 1950s to the 1980s that posited that if one country in a region came under the influence of communism, then the surrounding countries would follow in a domino effect. The domino theory was used by successive United States administrations during the Cold War to justify the need for American intervention around the world.

The Coming Race (original title), also reprinted as Vril: The Power of the Coming Race is a novel published in 1870 by Edward Bulwer-Lytton. The novel is an early example of science fiction, sometimes cited as the first of this genre. However, many early readers believed that its account of a superior subterranean master race and the energy-form called Vril was accurate, to the extent that ...
